

# Designer Draftsman

## COMPANY INFORMATION

At Technical Engineering & Consultants, we specialize in providing comprehensive engineering services tailored to the needs of manufacturing and industrial clients. With a commitment to efficiency, innovation, and excellence, we strive to optimize processes, streamline operations, and enhance productivity for our clients across various industries. Our team of experienced engineers, consultants, and specialists collaborates closely with clients to identify challenges, develop tailored solutions, and implement strategies that drive sustainable growth and success.

## POSITION OVERVIEW

We are currently seeking a skilled and detail-oriented Designer Draftsman to join our team. The Designer Draftsman will be responsible for assisting in the creation of technical drawings, plans, and visual representations of design concepts. This role requires proficiency in drafting software, a strong understanding of design principles, and the ability to collaborate effectively with multidisciplinary teams.

## JOB DESCRIPTION

- Collaborate with engineers, architects, and other team members to translate design concepts into technical drawings and specifications.
- Create detailed drawings, blueprints, and schematics using computer-aided design (CAD) software such as AutoCAD, SolidWorks, or similar tools.
- Ensure accuracy and adherence to industry standards and project requirements in all drafted documents.
- Review and revise drawings based on feedback from internal stakeholders and clients.
- Assist in the preparation of presentation materials, including renderings and visualizations, to communicate design ideas effectively.
- Maintain organized documentation of drawings and related project files for easy retrieval and reference.
- Support project managers and senior designers in coordinating and managing design projects from concept through completion.
- Stay updated on emerging trends, technologies, and best practices in design and drafting.

## QUALIFICATIONS

- Bachelor's degree or 3 years' experience in Architecture, Engineering, Design, or related field.
- Proven experience working as a draftsman or similar role in a design-oriented environment.
- Proficiency in CAD software (e.g., AutoCAD, SolidWorks, Revit) and other relevant design tools.
- Strong understanding of drafting techniques, standards, and principles.
- Excellent attention to detail and ability to produce accurate and precise drawings.
- Effective communication skills with the ability to collaborate with diverse teams and stakeholders.
- Ability to work independently and manage multiple tasks in a fast-paced environment.
- Portfolio showcasing previous drafting work and design projects is preferred.

## **BENEFITS**

- Competitive salary commensurate with experience.
- Comprehensive health benefits package including medical, dental, and vision coverage.
- Retirement savings plan with employer matching contributions.
- Flexible work hours and potential for remote work arrangements.
- Professional development opportunities and support for continued education.
- Dynamic and collaborative work environment with opportunities for growth and advancement.

If you are passionate about design and possess strong drafting skills, we invite you to join our team and contribute to the creation of innovative design solutions at Technical Engineering & Consulting. Apply now and become part of our creative and dynamic team!
